

NEWS RELEASE

MDxHealth announces its delisting from Euronext Amsterdam

IRVINE, CA, and LIEGE, BELGIUM, 29 November 2012 – MDxHealth SA (NYSE Euronext: MDXH), a leading molecular diagnostic company that develops and commercializes epigenetic tests to support cancer treatment, currently listed on Euronext Brussels and Euronext Amsterdam, announced today that it will de-list from Euronext Amsterdam effective as of 31 December 2012. The company considers that the Euronext is one trading platform and that a double listing is not justified anymore in the view of the increased costs which it implies. The company will remain listed on Euronext Brussels and does not expect that the de-listing from Euronext Amsterdam will have an impact on the liquidity for investors and potential investors.

About MDxHealth

MDxHealth is a molecular diagnostics company that develops and commercializes advanced epigenetic tests for cancer assessment and the personalized treatment of patients. The company's first commercial product, the ConfirmMDx for Prostate Cancer test, has been shown to help distinguish patients who have a true-negative biopsy from those who may have occult cancer. MDxHealth helps to address a large and growing unmet medical need for better cancer diagnosis and treatment information. The company has a proprietary platform and a strong epigenetic product pipeline focused on the development of products for brain and lung cancers. The company is based in Irvine, California with a European headquarters in Liege, Belgium. For more information visit MDxHealth website at www.mdxhealth.com.
